

**Innovative heating, cooling
and ventilation systems**

Who we are

Headquartered in Veregyháza, Thermotrade is one of the leading players in the Hungarian heating and ventilation technology market. Since our foundation in 1994, our company has been constantly expanding both in terms of knowledge and the number of successful projects.

Apart from our main, Liechtenstein-based partner, Hoval, we are the exclusive domestic distributors of several premium manufacturers with our own nationwide service network. The key to success of our privately owned business is commitment and responsible teamwork, based on trust. Our employees have an ownership stake.

What we do

Our mission is to ensure optimal living conditions in indoor spaces with efficient energy consumption. The ultimate task of our cost-effective and environmentally friendly solutions is your comfort and well-being.

Our offering

In the field of heating technology, our range includes everything from heat pumps to condensing, electric, industrial hot water, hot water and steam boilers and DHW generators, as well as heating buffer tanks, supplemented by our exhaust (chimney) systems. Within ventilation technology, in addition to indoor climate and ventilation systems, we also deal with data center cooling and smaller, enthalpy-recovery ventilation systems.

Our system-level solutions are based on the effective coordination of heating, cooling and ventilation needs.

Our heating and indoor climate products and systems

Further services

- Independent nationwide equipment servicing: commissioning, maintenance, repair
- Design support, on-site construction management
- Regulation and control technology
- Technical support
- Failure analysis
- Project implementation

The offers are prepared by our certified mechanical engineers, whereas commissioning and servicing tasks are carried out by qualified service technicians. We execute designing, advisory or consulting tasks with licensed subcontractors and qualified experts.

Our driving force is the constant development of tomorrow's heating and ventilation technology, for which we work together with partner companies, contractors and universities.

Our products are energy-efficient equipment – both in residential and industrial environments

As a responsible distributor of products of leading manufacturers in the field of heating and ventilation technology, we have committed ourselves to quality from the very beginning. For us, reasonable energy consumption is just as important as quality and technical reliability. Our equipment can be found in residential buildings, industrial, commercial and sports facilities, as well as in public buildings.

Our heating technology products

- Heat pumps
- Condensing, electric, as gas-, steam- and oil boilers
- Exhaust systems for both residential and industrial application
- Indoor ventilation systems
- DHW tanks and producers
- Heat transfer stations
- Charging and fresh water modules
- Regulation and control technology

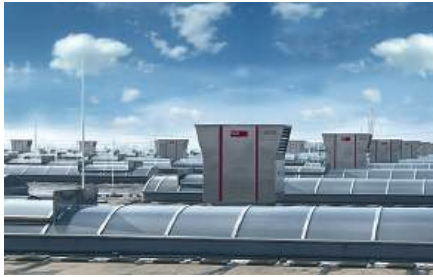

Our ventilation systems

- Recirculation and fresh air equipment
- Gas recirculation equipment
- Technological heat recovery
- Air conditioners for data centers

Our history

- 1994 Foundation of LZ Thermotrade
- 1997 Exclusive distribution relationship with Hoval
Our company signs an exclusivity agreement with the Liechtenstein-based Hoval group
- 2009 Dunapack project
Implementation of the largest steam boiler project in Central Europe in Dunaújváros
- 2014 Headquarters renewal
Our company's office building and warehouse are rebuilt and expanded
- 2022 The number of our qualified service technicians grows to 20
- 2023 Buyout of co-owners
The Lőrincz family becomes the sole owner of Thermotrade

Indoor climate systems – selected references

GKN, Miskolc - 28 pcs Hoval RoofVent® RC, 3 pcs Hoval Ultra-Gas® 2 gas boilers

RepTár Repülómúzeum, Szolnok - 8 pcs Hoval TopVent® DGV and CAU units

Hankook Tire, Rácalmás - 156 pcs Hoval RoofVent®, 47 pcs Hoval TopVent® TP units

Schott Hungary Kft., Lukácsháza - 10 pcs Hoval TopVent®, 4 pcs Hoval RoofVent® condens

Halms csarnok, Debrecen - 22 pcs Hoval TopVent® TP recirculation units with heat pumps

BPW-Hungária Kft., Szombathely - 32 pcs Hoval TopVent®, 21 pcs Hoval RoofVent® units

Hilti-gyár, Kecskemét - 33 pcs Hoval TopVent® and 9 pcs RoofVent® RP, 2 pcs ProcessVent®, 7 pcs Enerblue heat pumps

Sports and cultural center, Sárvár - 2 pcs Hoval RoofVent® condens, 3 pcs Hoval TopGas®, 2 pcs Hoval S 1000 H

Hell Energy, Szikszó - 67 pcs Hoval TopVent®, 3 pcs Hoval HomeVent® RS ventilation units, 4 pcs Hoval TopGas® gas boiler

Toray, Nyergesújfalu - 30 pcs Hoval TopVent®, 2 pcs Hoval TopGas® 100

KNAPP Hungary Kft., Nemesvámos - 13 pcs Hoval RoofVent® twin pump LW

SFS Intec Kft., Jánossomorja - 12 pcs Hoval RoofVent® LW ventilation device

Details and further references are available on our website

Heating technology: condensing-, gas-, steam- and thermal oil boilers – selected references

Corvinus Egyetem, Budapest - 16 pcs Hoval UltraGas® gas condensing boilers

MVM Dome, Budapest - 4 pcs Hoval UltraGas® D gas condensing double boilers

Mérgező úti Fűtőmű, Gyöngyös - 3 pcs Hoval UltraGas® gas condensing boilers

Mayor's office, Veresegyház - 3 pcs Hoval TopGas® gas condensing boilers

Corvin sétány, Budapest - 4 pcs Hoval UltraGas®, 7 pcs Hoval TopGas®, 2 pcs Hoval AtmoGas

Dr. Koltai Jenő Sports center, Budapest - 10 pcs Hoval TopGas® gas condensing boilers

Hilton, Budapest - 3 pcs Hoval UltraGas® D gas boilers, 3 pcs Magnabosco rapid steam generator, eka chimney system

Spar Magyarország Kft. Regnum Húsüzeme, Bicske - 1 pcs astebo THD-U steam boiler

Balassa Kórház, Szekszárd - 4 pcs Magnabosco rapid steam generator, 2 pcs SKI diathermic oil heaters, 43 pcs Hoval UltraGas®

Rauch-Hungária Kft. Nyírmada - astebo THSD-IE steam boiler

MOL LUB, Almásfüzitő - 2 pcs Ness WEH diathermic oil heaters

Dunapack Zrt., Dunaújváros - 4 pcs astebo THD-IZ steam generators (55 t/h)

Details and further references are available on our website

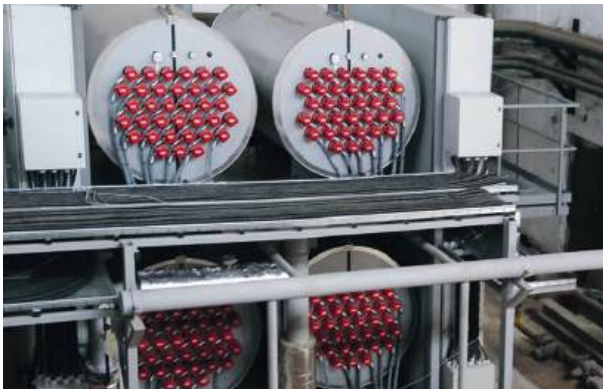

Heating technology: electric steam and hot water boilers – selected references

Power Plant, Tatabánya -
1 pcs 20 MW Parat electrode boiler

Alteo Energiaszolgáltató Nyrt.
Kazincbarcika and Tiszaújváros -
6 MW Parat electrode boilers at both plants

District heating provider, Almásfüzitő -
Ecotherm electric boilers (5040 kW)

Aluminum extrusion plant -
2 pcs Ecotherm elektromos steam boilers
(1500 kg/h) in container design

Biofinomító, Dunaföldvár -
1 pcs Ecotherm electric boiler (1440 kW)

Car factory, Debrecen - 6 pcs Ecotherm electric boilers and 1 pcs elektrik hot water tank;
6 pcs Hoval RoofVent® and 17 pcs TopVent®

Details and further references are available on our website

Heating technology: heat pumps and domestic hot water tanks – selected references

Hotel Ózon & Luxury Villas**, Mátraháza** - A total of 22 pcs Hoval Belaria® dual AR, Thermalia® dual and Belaria® SRM heat pumps

Premontrei Order, Gödöllő and Zsámbék - 6 pcs Enerblue heat pumps, 3 pcs Hoval buffer storages and 3 pcs hot water tanks

Gébárti Lakópark, Zalaegerszeg - 3 pcs Enerblue Orange HT eat pumps, 3 pcs Hoval buffer storages, 3 pcs Hoval hot water tanks

Kérész Központ, Tiszafüred - 2 pcs M-Tec WPS heat pumps, 1 pcs Hoval EnerVal buffer storage

Primavet Produkt Kft., Budapest - 3 pcs Hoval Belaria® fit heat pumps, 2 pcs Hoval TopGas® gas boilers, Hoval CombiVal E buffer storage

Details and further references are available on our website

Családi ház, Budajenő - M-Tec heat pump, Hoval hot water tank and Hoval buffer storage, Hoval HomeVent® ventilation unit
